Revision January 2009

Be prepared for an adjustment period. Do not leave them alone during your absence at least for the first week. Call us for advice. A good rule of thumb is "The younger the child, the older the cat." If you have a child under the age of eight, then you are responsible for monitoring and teaching the child how to handle a cat with care. Are you up to the challenge? A gentle, loving, considerate home will produce a wonderful, loving adult cat.

Tell us about your household:

Companion Animals (number, type, breed, age of each)

Children (number, age of each)

Are you ready for the commitment of fostering?

1. Are you willing to foster this animal until it is adopted? YES NO
2. If no, how long: _____
3. Do ALL household members agree to this? YES NO
4. Will you provide food and litter? YES NO
5. Or, do you wish SCAT to provide food and/or litter? YES NO
6. Do you have a room/area where the animal can be quarantined, if and when necessary? YES NO
   Please describe: _____
7. Are you prepared to keep SCAT informed of progress on a regular basis? YES NO
8. If, and when necessary, are you prepared to provide transport to medical appointments and to follow veterinarian's instructions if medical treatments/care are needed? YES NO
9. Sometimes we have cats that go through some periods of time with some behavioral problems and we look to special foster homes to help get them over it. Do you have experience handling cats with behavioral problems? YES NO
10. Are you prepared to KEEP this animal INDOORS? Or when outdoors, on a leash, or in a carrier for transport, or in a catrun? YES NO
11. Are you prepared to make every effort to be available for potential adopters to come to your home to visit the foster animal? YES NO

9. I understand that if this foster animal gets loose outside accidentally, and I am unable to locate this animal within 30 minutes, that I will contact the Foster Committee.
